September 2008

Hello Block Watch Members!

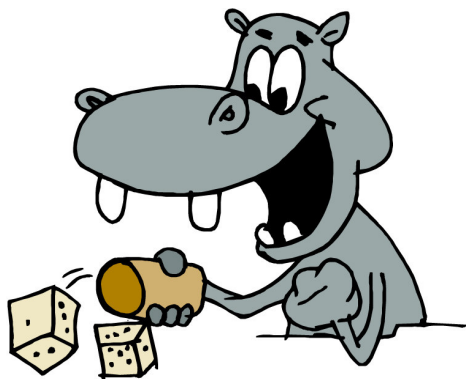

There were **54** residential burglaries during the month of August, with **1** occurring at an active Block Watch residence.

The amount of burglaries you see listed are for single family homes. It's the only time in 15 years I've ever had to use two sheets of paper to list them all. Scary – isn't it? Even taking into account the fact that we annexed 25 percent of unincorporated King County into our City recently, these numbers are unacceptable – especially when 65 percent of them were non-forced entry (open windows, unlocked doors, unsecured garages, etc.)

A Block Watch meeting is easy to schedule, and even easier to maintain: You hold one Block Watch meeting once a year with a crime prevention representative (me!), and learn how you and your neighbors can deter criminal activity in your neighborhood. One of the burglaries listed occurred in an active Block Watch residence. **ONE!** Where else do you get odds like that? And when it comes to the safety and security of you, your family, and your property – where else are you going to get such favorable odds? NOWHERE!

There were a couple instances during the month of August when a citizen saw something suspicious occurring near their neighbor's home – so they called 9-1-1. You know what happened? WE ARRESTED BURGLARS! See how easy that is?

Who you invite to your Block Watch meeting is up to you – the important part, is having one. If you are open to having a meeting, but hesitant to hold it in your home, there are other options: community centers, local libraries, school cafeterias, etc. The meetings take approximately 45 minutes to an hour and provide valuable information that you may not have thought of or known before.

Look. . . . if the Block Watch program wasn't still a viable program, we would discontinue it. With the City growing by leaps and bounds there's plenty for us to do. We continue the program because it's **EFFECTIVE** and because it makes a difference.

If somebody told you that you could significantly decrease the chance of your home being broken into by simply spending approximately 45 to 60 minutes a year with me, would you? I'll take those odds!
